

West Lafayette Flour Mill Is In Receiver's Hands

**Three Suits Filed Against Concern
by Henry Rehard—Property Will
be Sold in Short Time—Feared
Creditor Might Lose Thru Action
of Owners.**

Following the filing of three suits in common pleas court yesterday afternoon, the William Wilson & Sons flour mill at West Lafayette was placed in the hands of A. S. Rippeth, of this city, who was appointed receiver by Judge Glenn.

Henry Rehard, of West Lafayette, thru his attorney, F. E. Pomeroy, filed the suits. On his petition for a receiver Rehard alleges that the defendants have been selling and disposing of their mill output without paying on claims of creditors and that the property is in danger of being sold and placed beyond reach of the creditors.

The first case filed resulted in a judgment for \$963.91 being taken and Sheriff Pharon levied upon the property. The second suit was brought to foreclose on a mortgage for \$3500 on the mills with interest from December 1, 1915.

Heavily Indebted.

The third petition was for the appointment of a receiver. In this petition it is pointed out that a judgment for \$963.91 has been recovered. The plaintiff claims

Two Thrown From Buggy

Mr. and Mrs. Holly Mowery, of Coshocton route 3, narrowly escaped serious injury when the horse they were driving became frightened at an automobile driven by Ralph Wheeler, son of T. H. Wheeler. The accident occurred on the Warsaw-Coshocton road. Wheeler is said to have pulled out to one side of the road and stopped his car to allow the buggy to pass. The horse shied and the buggy was turned over a steep bank at the side of the road. The two occupants were thrown out in the mud but fortunately escaped injury.

NICE WEATHER.

With bright sunshine followed by a howling blizzard and snow storm, March "Out-Marched" itself Wednesday. A stiff wind from the west during the afternoon made it a hardship for those who were forced to stray from the fireside or steam heater and the mercury dropped to 28 degrees shortly after four o'clock. On account of the wind, however, the weather appeared to be considerably colder than the thermometer registered.

Indications are that there will be snow flurries again today altho it takes a courageous prophet to commit himself at this season.

North-East District to Pay for Trip

District Superintendent T. G. Syler, of the Northeast District, is very much interested in the Boys' Corn Growing Contest and the free trip to Washington and is working upon a plan whereby each teacher in the district will be asked to contribute \$1 toward defraying the expenses of the above named trip. Mr. Syler promises to stand good for the remainder of the amount. This will be open only to boys enrolled in the Northeast District.

It is probable that the other district superintendents will adopt a like plan.

CORPORATIONS ARE INDICTED BY GRAND JURY

**Judge Gary Charged With
Conspiracy In Connection
With Strike**

**FOREIGN INFLUENCES
ARE NOT RESPONSIBLE**

**Alleged To Have Fixed
Wages Of Labor Contrary
To Laws Of Ohio**

Youngstown, Ohio, March 8.—Judge Elbert H. Gary, chairman of the United States Steel corporation, and the Republic Iron & Steel Co., the Youngstown Sheet & Tube Co., the Carnegie Steel Co., the Brainerd Steel Co., the Youngstown Iron & Steel Co. and the United States Steel corporation, as corporations, were indicted here today by the grand jury probing the disastrous riots at East Youngstown, January 7.

The strike outbreak at that time resulted in a property loss of \$1,000,000 and a week's stay here of several national guard regiments.

Indictments against Gary and the steel companies were returned for conspiracy to fix the wages of common labor in violation of the laws of Ohio and to fix prices of iron and steel products in the Mahoning valley.

Due To An Agreement.

The specific offense charged against the steel concerns is that they conspired to keep the wages of common labor at the same figure at the time of the strike at the Republic Iron & Steel Co. and the Youngstown Sheet & Tube Co. in January.

Announcement was made by all these companies within two days' time of a ten per cent. increase in wages. This action is held to be due to an agreement.

The grand jury which was out 39 days found that that foreign influences did not enter into the cause of the riots.

EXPERIMENT FARM NEEDED WITH AGENT

**Two Go Hand In Hand Says
A. P. Sandles, Former Ag
Commissioner**

**CLARK TO EXPLAIN
TO LOCAL FARMERS**

**Expect Big Attendance Of
Farmers When Matter Is
Taken Up Saturday**

That to fully realize the benefits to be derived by farmers thru a County Agent the county should also have a county experiment farm is the substance of a statement made by A. P. Sandles, of Ottawa, former head of the state agricultural commission to a Tribune representative.

The agriculturist professed considerable interest when informed that Coshocton county farmers are considering the county agent question and spoke highly of the benefits to be derived therefrom.

Expect Big Attendance.

Indications are that farmers from all sections of the county will attend the meeting at the Chamber of Commerce hall Saturday afternoon when the question of a county agent will come up for discussion. Clark Wheeler, director of the extension work of the Ohio State University, will explain how farmers of this county can obtain experiment farm and a county agent. PROPAGANDA IS EXPOSED AT NEW YORK

**World Claims Congressmen
Are Unwitting Tools Of
German Leaders**

**WOULD PROHIBIT
LOANS TO ALLIES**

**Attempt To Secure Embargo
On Exports Of Munitions
Of War**

New York, March 8.—Since the sudden denouement in congress that the president's foreign policies were being undermined there, it has been generally suspected that that situation was the work of a pro-German propaganda which has proved effective in other neutral, but less important nations in recent months, but the World has just made an expose of such a propaganda, with letters and documents that leave no room for doubt that to the work of such a junta of Germans the threatened tying of the hands of the president is to be credited.

The World has found that Alphonse G. Koellie, who has offices at No. 80 Maiden Lane, New York, and who was in Europe last summer, presumably getting his orders from Wilhelmstrasse, is at the head of the pro-German legislative propaganda, which is working with three objects, viz: To secure a law refusing passports to Americans traveling on ships of the belligerents.

To secure an embargo on exports of munitions of war.

To secure a law prohibiting the reserve banks from making war loans.

Harry Platt Is Injured

Word received by relatives at West Lafayette from Harry Platt, of Steubenville, formerly of this city, was to the effect that he was recovering and it was that would experience no permanent injury as the result of a bad fall on the ice sustained at Cadiz Wednesday morning. He was rendered unconscious and remained so for some time following the mishap. He is the son of Mr. and Mrs. T. J. Platt, of West Lafayette. Frank Karr, of this city, who is a brother-in-law of Mr. Platt, left for Cadiz Wednesday and late last night wired that the injuries would not be permanent.

GROWING A BEARD.

C. O. Turner, well known local attorney, for the time being has become a Nazarene.

Wednesday afternoon in the presence of a brother attorney and others, Turner made a solemn vow that a razor should not come nigh his face until Judge Glenn's investigation committee should report.

The committee was appointed February 5th, with instructions to investigate an interview with Judge Ashman published in The Tribune. It was that at that time the report would be made within the following ten days.

London, March 8.—The giant German "nut cracker" has closed in still more tightly upon Verdun, the German war office reported this afternoon.

The village of Regneville, seven miles northwest of Verdun, was captured last night by the right wing of the German encircling army.

Berlin also announced the capture of the village of Forges, a mile west of Regneville, whose loss had previously been admitted by the French.

Storm French Front.

West of Regneville, on the west bank of the Meuse, the Germans stormed the French front below Bethincourt on a front of about three and one-half miles, the German war office reported. The gains claimed for the Germans during last night's fighting are the largest since the first days of the Verdun offensive.

The left jaw of the German machine pressed forward in the Woivre region 12 miles southeast of Verdun. Berlin reported that the French have been driven out of the few remaining houses they held in Fresnoes. The town itself

Collision Results in Law Suit

As a result of injuries alleged to have been sustained when he was struck by an automobile driven by Abraham B. Markley, William H. Adams commenced suit in common pleas court Wednesday for \$5,273 damages.

The plaintiff claims that at the time the accident occurred, November 25, 1915, he was forty-one years of age and was earning \$22 per week as a barber. Since then, he claims, he has been unable to do his work properly and has suffered greatly from the injuries Adams says that he was riding his bicycle in a westerly direction on Walnut street and that the defendant was driving an automobile east on the same street. The plaintiff says that Markley was driving at a high rate of speed and that his negligence resulted in the collision.

STOPPED SHORT.

Taking Tonics, and Built up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics.

New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food.

"I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin woman.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream, and drank milk also, went to bed early after eating a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained weight and felt like a different woman. Grape-Nuts and fresh air were the only agents used to accomplish the happy results." "There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heat the inflamed membrane. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used at a cost of only 34 cents. No bother to prepare. Full directions with Pinex.

It heats the inflamed membrane so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in vitamin, and is famous the world over for its healing effect on the membrane.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

A Genuine Rupture Cure Sent On Trial To Prove It Don't Wear a Truss Any Longer.

After Thirty Years' Experience I Have Produced An Appliance for Men, Women and Children That Actually Cures Rupture.

Ten Reasons Why You Should Send For Brooks Rupture Appliance

1. It is absolutely the only Appliance of the kind on the market today, and in it are embodied the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never irritates or causes irritation.
4. Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness.
7. There is nothing about it to get foul, and what it becomes soiled it can be washed without injuring it in the least.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All of the material of which the Appliance is made is of the very best that money can buy, making it a durable and safe Appliance to wear.
10. My reputation for honesty and fair dealing is so thoroughly established by an experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending free coupon today.

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience. If ruptured, write him today, at Marshall, Mich.

Child Cured in Four Months

Mr. C. N. Brooks, Marshall, Mich. Dear Sir:—The baby's rupture is altogether cured, thanks to your Appliance, and we are so thankful to you. If we could only have known of it sooner, our little boy would not have had to suffer near as much as he did. He wore your brace a little over four months. Yours very truly, ANDREW EUGENBERGER.

Remember

I send my Appliance on trial to prove what I say is true. You are to be the judge. Fill out free coupon below and mail today.

Others Failed But the Appliance Cured

Mr. C. E. Brooks, Marshall, Mich. Dear Sir:—

Your Appliance did all you claim for the little boy and more. For it cured him sound and well. We let him wear it for about a year. In all, although it cured him 3 months after he had begun to wear it. We had tried several other remedies and got no relief, and I shall certainly recommend it to friends, for we surely owe it to you. Yours respectfully, WM. PATTERSON, No. 717 S. Main St., Akron, O.

Confederate Veteran Cured

Commerce, Ga., R. F. D. No. 11.

Mr. C. E. Brooks, Dear Sir:—I am glad to tell you that I am now sound and well and can plough and do any heavy work. I can say your Appliance has effected a permanent cure. Before getting your Appliance I was in a terrible condition and had given up all hope of ever being any better. If it hadn't been for your Appliance I never would have been cured. I am sixty-eight years old.

hour movement, whether employers, union members, or sympathizers. Besides sending them out on letters, union members receiving them are asked to paste them on mirrors in the shops, on literature distributed to workmen and on bills and letters that go directly to business men.

The idea of using the eight-hour stamps in a Nation-wide publicity campaign was worked out after the Industrial Relations Commission had developed that fact that the Rockefeller interests were paying Ivy Lee \$10,000 per year to act as the Rockefeller press agent. It was suggested that Organized Labor had concentrated its energies so completely on wage fights that it had neglected educational opportunities such as organized capital employed with great skill.

A stamp by the use of which every union member could constitute himself "an Ivy Lee of the labor cause" was the result.

Children will be asked to paste the stamps on their lesson papers with this note to their school teachers: "Teacher, teach us these truths."

Members of church congregations will be asked to send a stamp to their priest or preacher suggesting a sermon: "Nearer to Justice—the Eight-Hour Day."

Organizations, societies, and public officials who express sympathy with the eight-hour cause are to be supplied with large quantities for use on all their official correspondence.

The campaign for the nation-wide use of an eight-hour stamp is receiving the support of local unions which are taking an active interest.

now entirely in German hands. Bring Up Artillery.

The German division that stormed Hill 265 on the northeastern spur of Goose hill, has made several weak attacks against French positions higher up on the slopes. Artillery is being brought up in preparation for a heavy assault against both Goose hill and Dead Man hill, to the east.

On the east bank of the Meuse the German guns directed a heavy bombardment against the French front yesterday afternoon. Paris expects a renewal of the crown prince's onslaughts against General Petain's center at Douaumont, with another thrust from the region of Fresnes.

Look For Heavy Blow.

The loss of the village of Forges and of Hill 265 are not regarded as of great importance in themselves, but French military circles today gave warning that the crown prince's greatest blow may be struck on this front northwest of Verdun.

Paris estimated today that it would cost the crown prince more than 10,000 in killed and wounded to storm the position, but admitted it might be well worth the cost.

THERE IS A VAST ARMY
of men and women who really never know what it is to enjoy sound, vibrating health—who would be surprised to suddenly gain that exhilarating vitality that robust health brings.
Literally thousands without any particular sickness live in "general debility", as the doctors call it—have headaches, are tired and indifferent. To all such people we say with unmistakable earnestness—"Take Scott's Emulsion after meals for one month and allow its rare oil-food to enrich and enliven your blood, quicken your circulation, stimulate nutrition, and aid nature to develop that real red-blooded life that means activity, enjoyment, success."
Scott's Emulsion is not a drug, but a pleasant food- tonic—free from alcohol. One bottle may help you.

FREE TRIP OFFERED BY MEDINA CO.
Coshocton county boys who contemplate entering the Boys' Corn Contest for the Washington trip this year will be interested in the offer made by the agricultural department of the Barrett Company, of Medina, Ohio, to give every boy, who enters the contest, 50 pounds of fertilizer free at his railroad station, provided he will apply it on one-half of his acre and will furnish the Medina company a statement of the yield of each half separately when the corn is husked.
The proposition of the Barrett Company has been received by County School Superintendent L. C. Shaw. The letter says in part: "Every boy who enters the contest must give his corn all the available plant food possible if he is going to get a large yield. Corn requires a large amount of nitrogen in a soluble form while the plants are small. Later in the season when the root system has extended further, the decaying sod and manure will push the crop along. Sulphate of ammonia carries 20 1-2 per cent of available nitrogen in the form needed by the young corn plants."
The Medina Company also offers to pay the expenses of the Washington trip for the winner in each quarter of the state provided he accepts their offer and uses the sulphate of ammonia as suggested. This gives each quarter of the state a chance at one more free Washington trip.

A Shine in Every Drop

Before the Customers Come

How the Matson Company (Buster Brown Shoes) of Cedar Rapids, Ia., are building a business on two hours a day.

WHAT do you think of a retailer who takes the early hours before the rush of customers—the hours that look least valuable—and makes them the most profitable of all?

What do you think of a man who has all the office and book work of his business finished by 9:30 a. m. and has all the rest of the day to make friends and pile up profits?

What do you think of a simple set of books that shows every day a complete record of yesterday's transactions, including:

- Perpetual inventory of merchandise on hand.
- Total cash sales.
- Cost of cash sales.
- Total charge sales.
- Cost of charge sales.
- Profit for the day.
- Money customers owe you (accounts receivable).
- Money received on account.
- Money that you owe (accounts payable).
- Total checks paid for goods bought.
- Number of pairs sold during the day.
- Total of discounts on invoices.
- Total of expenses.
- Total bank deposits.
- Merchandise returned to manufacturer.
- Number of pairs added to stock.
- Number of pairs remaining in store.
- Amount of sales by each clerk.
- Profit on each clerk's sales.

That's the information which F. D. Matson has about his business—every day. Matson and many other retailers are getting this complete information, easily, quickly, by the use of a Burroughs Figuring Machine. The mechanical brain of the Burroughs is equal to the whole job in two hours or less each day.

Sales Slips Tell Big Story
IT'S astonishing what a bunch of sales slips reveals when you put a Burroughs at work on it.
Your fingers run over the keys, listing the items—you press the Total Key, pull a lever, and you've printed your total cash sales for the day.
Charge sales come just as easily—then total sales.
Total cost of sales takes only a few minutes more—for the code figures are on the slips.
It is not so much work to add up sales by clerks either and know which makes the most sales—and the most profit.

Perpetual Book Inventory
THE machine enables Matson to keep a perpetual book inventory, which aids in buying and results in bigger profits and quicker turn-overs.
Besides that the Burroughs enables him to take an actual stock inventory often. Comparison of book and actual inventories puts a check on leaks.

THE remarkably simple and effective way Mr. Matson gets all the facts about his business is typical of what the Burroughs will do for any business. Whatever your kind of business—there's a Burroughs to handle the figures.

Write to our nearest office—your telephone book or your banker will give you the address—and simply say that you are interested in the figures which a Burroughs will enable you to get about your business. If you prefer to write to the factory, address Burroughs, Detroit, Michigan.

FIGURING AND BOOKKEEPING MACHINES PREVENT COSTLY ERRORS—SAVE VALUABLE TIME
Burroughs
PRICED AS LOW AS \$125

Mr. Matson and the Burroughs Figuring Machine, but enables him to get all the figure facts about his business.

In the slack time of the day the Matson Store gets the figure facts on which to build for bigger profits.

The Burroughs makes it easy to inventory every item in stock in surprisingly short time.

Good window display of course—the Matson Company is alive to all the angles of modern storekeeping.

Dandruff Goes!
Hair Gets Thick,
Wavy, Beautiful

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few week's use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference—how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediately and amazingly—your hair will be light, fluffy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

them, sons Raymond, Harry and Lewis, and daughter Wilma, Mr. and Mrs. N. B. Wise, Mr. and Mrs. Joe Wise, John Maley and Mr. and Mrs. Valentine Marhofer.

ITCHY SALT RHEUM

Sometimes Called Eczema—Removed by Mond's Sarsaparilla.

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, cones, dries and scales, and then does this all over again! Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering, which is commonly worse at night.

Local applications may do some good, but they cannot permanently relieve. The disease will continue to annoy, pain and perhaps agonize, until the blood has been purified and the general health improved.

Ask your druggist for Mond's Sarsaparilla, the good old reliable family remedy. It has given perfect satisfaction in thousands of cases. Insist on having Mond's Sarsaparilla, for no substitute acts like it. Get it today.

The Store of Careful ServiceIf Your Baby Has Bad Colds
Follow Xenia Mother's Advice

Mrs. C. R. Shelton Found Vick's Vap-O-Rub Salve the Ideal Treatment for "Baby."

Mothers know how difficult it is to treat little babies' colds. It seems criminal to give them strong internal medicines, and, yet, their colds can not be neglected.

Mrs. C. R. Shelton, 305 Hill St., Xenia, Ohio, solved this problem when she tried the Southern treatment—Vick's Vap-O-Rub Salve.

Mrs. Shelton writes:—"Our baby, twenty months old, had a severe cold and coughed almost every breath. I rubbed her with your remedy, and the next morning her cough had left her entirely. I must say your remedy is surely all it is claimed to be, for it acted like magic on her."

Vick's is the ideal household remedy for the many troubles for which every mother is the doctor. The formula is given on every wrapper. In addition, it is applied externally, with perfect safety on the youngest member of the family.

For croup or colds just apply Vick's over the throat and chest and cover with a warm flannel cloth, leaving the covering loose around the neck so the vapors arising may be inhaled. Croup is usually relieved in fifteen minutes—colds over night.

Vick's Vap-O-Rub comes in three sizes, 25c, 50c or \$1.00, at all drug stores.

Iowa needs—

Iowa is the premier crop producer and the richest agricultural state in the Union but—

Iowa needs—

What agricultural Iowa needs in order to be greater is stated in the last important interview on this subject given by the late Henry Wallace, the dean of agricultural editors in the Middle West and a tireless crusader for a greater and better Iowa.

What he says is of importance to every farmer throughout the Middle West.

It appears in

The COUNTRY GENTLEMAN

Also in this issue:

Is Hog Cholera Conquered?

Is it true that a new, cheap, simple, safe preventive has been found for the scourge that costs farmers millions of dollars annually?

Dr. Charles W. Duval believes so. He has announced his discovery to the Secretary of Agriculture.

Dr. Duval is a scientist of recognized standing.

The Department of Agriculture, through the Bureau of Animal Industry, is planning to make thorough tests of this discovery at Ames, Iowa, during the early spring.

Whether or not these tests will prove that Dr. Duval is right, no farmer should fail to read what he said to the Congressional Committee on Agriculture.

OLD-TIME COLD CURE-DRINK TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburg Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

soon on Monday the 27th day of March, 1916, for the purchase of thirty-six (36) bonds of Five Hundred Dollars each of said Special School District aggregating Eighteen Thousand Dollars (\$18,000), and dated April 1st, 1916, bearing interest at the rate of four and one-half percent (4 1-2%) per annum, payable semi-annually thereafter.

Said money to be used for the purpose of building a school house and equipping the same in said special district, under the authority of the laws of Ohio, in sections 7625, 7626, 7627, and 7628 of the General Code of Ohio, and as amended in Volume 106 Ohio laws, and under and in accordance with certain resolutions adopted by said Board on the 1st day of June 1914 and by the further authority of an election held on the 3rd day of November, 1914, resulting in ninety-one (91) votes for and forty-four (44) votes against; and under and in pursuance of certain resolutions adopted by said Board on the 5th day of October, 1914, and on the 23rd day of February, 1916.

Said bonds and interest being payable at The Commercial National Bank at Coshocton, Ohio or at the office of the clerk of said board; said bonds to mature as follows:

Bond No. one will mature April 1st, 1917; bond No. two (2) will mature October 1st, 1917, and one Five Hundred Dollar bond each succeeding April 1st and October 1st until October 1st, 1934 when the last bond No. thirty-six (36) will mature.

Said bonds will be sold to the highest and best bidder for not less than par and accrued interest.

The bids must state the number of bonds bid for and the gross amount of bid and the accrued interest to date of delivery, and all bids shall be accompanied by certified check payable to the Clerk of said Board of Education, for three per cent of the amount of the bonds bid for, with the condition that if the bid is accepted, the bidder will pay for such bonds as may be issued as herein specified, promptly upon the tender of such bonds by said Board. Said check to be retained and collected by said Board of Education in case said condition, last aforesaid, is not complied with.

Bonds will be furnished by said Board of Education and bidders must be satisfied as to the legality of such bonds before putting in their bids.

Said Board reserves the right to reject any or all bids.

Bids should be sealed and endorsed, "Bids for bonds of the Conesville Special School District, Coshocton County, Ohio."

By order of the Board of Education of said District.

Clerk of the Board of Education.
